### Profile

---

I am a Frontend developer with 1 year of experience in web development, including 6 months of commercial work. I am proficient in JavaScript, TypeScript, React, Redux, HTML, CSS, and preprocessors. I'm eager to grow professionally, deepen my knowledge, and gain hands-on experience in real-world projects. I'm currently looking for a team of like-minded developers who are passionate about what they do and a company that values continuous learning and supports professional development.

### Skills

---

React | Redux | Redux Toolkit | Typescript | JavaScript | HTML5 | CSS3 |  
SASS/SCSS | BEM | Bootstrap | Gulp | Git/GitHub | Figma | Bulma | REST API |  
VS Code | NPM | OOP understanding | English (Pre-Intermediate)

### Projects

---

#### Phone Catalog

*React, TypeScript, React-Router, SCSS, Lodash debounce, BEM*

 **DEMO**   **GITHUB** 

Built a stylish React product catalog with dark theme, search, cart, favorites, filters, sorting, pagination, and product details.

#### 2048

*HTML, CSS, JS*

 **DEMO**   **GITHUB** 

A browser-based version of the iconic 2048 puzzle. Slide tiles, combine them, and try to hit the legendary 2048 score! Fully built with native JavaScript — no libraries, just logic and fun.

#### Travel Agent

*HTML, CSS, JS, Gulp*

 **DEMO**   **GITHUB** 

Developed a responsive web template using Gulp for task automation and project optimization.

#### Museum

*HTML, CSS, JS*

 **DEMO**   **GITHUB** 

Created a modern and accessible museum website template featuring interactive elements and responsive design.

## Professional Experience

---

### Frontend developer

01/2024 – 05/2024

*Web Art Work*

 [Intern Profile Page](#) 

- developed responsive web page templates both based on Figma designs and from scratch
- implemented interactive UI components using JavaScript, such as modals, burger menus, sliders, and more
- built structured and semantic layouts using HTML5 and CSS3, including Flexbox and Grid
- ensured cross-browser and mobile compatibility
